

vote *angie*
for CSC !!

hey gang, im **angie** and im running
to be your next **clubs and socs chair**
here are my main priorities for next year:

training refinement

I'd like to continue promoting the financial booklet made last year so all our committees are supported with **everything finance and more**- ensuring that contracts, POs, etc. are submitted within the correct timeframe and that they understand **annual budgeting**, especially with the new system changes.

csp events

I also hope to **encourage collaboration** between societies and SU so they're more in touch with each other in their event planning, especially with **conferences**. I'd like to schedule 1-2-1s with conference chairs; creating a **comprehensive calendar**; and using this overview to help strategize collaborations, reduce overlaps and sort out room bookings alongside conference chairs.

reynolds bar

This year, SU have done an incredible job in communicating with Reynolds staff regarding the bar and its usage. I aim to continue these conversations and focus more on **furniture maintenance**, **prompt tap refilling/repairs** and **staff training** to enhance our events, particularly our beloved Sports Nights!

Along with these aims, I'd also like to continue work from this year including welfare training, and tackle new things such as storage issues, so I hope you can consider me for your vote!
