For Junior Armourer – Imperial Fencing Club

Hi everyone! I'm **Aden Vishnevsky**, and I am getting my Master's in Risk Management & Financial Engineering at Imperial Business School. Before coming to Imperial, I studied at Stevens Institute of Technology in the US, where I was a member of the university's fencing team. Fencing has been a big part of my university experience, and I'm excited to continue that here at Imperial! I'm running for Junior Armourer because I want to help keep our club's equipment reliable and ready for training and competition.

What I'll focus on

Keeping equipment in good condition

Help regularly check and maintain club equipment.

Quickly addressing equipment problems

Work with the Armourer to resolve issues efficiently.

Learning and sharing knowledge

Build armoury skills and help members with basic equipment care.

Organized. Dependable. Eager to help.

I'd love your vote!
