

DEVI FOR FEMTECH EVENTS OFFICER!

Hey everyone, it's Devi, a Year 2 Medical Biosciences student!

Starting as a curious attendee at the freshers' fair, unsure about FemTech, I've grown into a dedicated member over the past two years. My journey here has honed my passion for female health, and I am currently considering an MSc in Reproductive Health.

I'm the ideal candidate for the role, with my:

- > **Networking abilities** - my capability to connect with a wide range of professionals and experts in the field.
- > **Organisational skills** - demonstrated through my role as CMO at PulmoGuard, I have a proven track record of managing complex projects with precision and efficiency.
- > **Enthusiasm for female health!**

With me, look forward to:

- **NETWORKING SESSIONS** - office-tours @ FemTech companies, start-up fairs and conferences.
- **PANEL DISCUSSIONS** - with leading experts in reproductive health, biotechnology, and digital health startups, providing research insights.
- **WORKSHOPS** - featuring hands-on demonstrations of new technologies and discussions on their impact on women's health!
