

DARSH ASHER

In it Together.
Making it Better.

ABOUT ME

I'm **Darsh Asher**, a first-year Mechanical Engineering student at Imperial. I'm here to make sure your voice is heard, your questions get answers, and you have the support you need to thrive in ME.

MY EXPERIENCE

Head of School

Ran pupil voice schemes and met with staff to communicate students' needs and turn feedback into action.

Always found a way

Students came to me for advice and guidance. I didn't always know the answers, but I made sure to find the right people who could help.

Warrant Officer – School CCF

Worked with staff to improve access to resources and create more opportunities for cadets.

WHAT I WILL CHANGE

Better access to resources

Make the MechEng Google Drive easier to navigate and ensure useful resources are easy to find.

Guidance whenever you need it

Help you find the right answers for your academic questions and make sure the right people can support you.

A clear channel for your feedback

Keep you updated on what happens and make it easy to raise concerns and suggestions.

In it Together.
Making it Better.
