

HELLO,

I'm **Emily Du**

First year biology student

City wide scavenger hunt with the junior French class

Animal shelter building

Social events

Event manager for multiple balls

ABOUT ME

I'm from Shanghai, and practically have a zoo at home : 2 cats, one of which i saved from the streets, 1 dog, 1 cute hamster i promised to take care of for a friend, and 2 parrots (still trying to befriend them without having my fingers chewed off...) Through 8 years in student council — including serving as President in the last 2— I have organised charity markets, formal balls, trivia nights, adoption drives, bake sales, and community events for children. From securing sponsorships to handling logistics and building the right atmosphere, I have learned that successful events are about more than organisation — they are about creating spaces where people feel welcomed and connected. And I hope this little poster full of previous events managed and led by me will let you get to know the kind of energy I hope to bring to BioSoc. If that resonates with you, I'd be honoured to have your vote :P

MY HOBBIES

- Baking
- Gym
- Exploring new places
- Listening to music

THINGS I LOVE

- Animals
- Chocolate
- sleep

Animal adoption events

My cat **JIMMY**

Organizes annual Christmas market with over 50 sponsors

more social events !!
