

Heather Liu

MPH - Master of Public Health

"Global Health, Our Shared Well-being!"

SKILLS & EXPERIENCES

- 01** Johns Hopkins Hospital
Sole undergraduate intern at Johns Hopkins HEIC, designed infection control database for hygiene compliance and COVID-19 data.
- 02** King's Health Partners
Project led and managed international healthcare collaborations on health inequality projects.
- 03** BCG x Global Spark Hackathon
Led the team as an entrepreneur in the Health & Humanity stream, developing a "Smart Pill Box" solution for prescription drug addiction prevention.
- 04** Volunteering
Vaccinator with St John Ambulance and volunteer researcher for MenstrualRightsGlobal, analysing menstrual leave policies.

"Together, we can make global health more accessible to students while making a real difference in our communities"

Vote **Heather Liu** for **Projects & Volunteering Officer**

CAMPAIGN PROGRAMS

- 01** Expand Volunteering Opportunities
Build a diverse network of volunteering options in public health, nationally and internationally, tailored to student interests.
- 02** Support Student-Led Initiatives
Provide essential support for student-led projects, including access to funding, mentorship, administrative resources, and networking with external partners.
- 03** Measure Volunteering Impact
Develop a sharable impact handbook with a clear evaluation framework. Establish a volunteering talent network and create certified volunteering programs recognised by Imperial.
- 04** Volunteering Training and Skills Workshops
Offer targeted workshops to enhance volunteer skills, ensuring their contributions are effective and impactful.
