Do You Want To Work As A Portfolio Manager/Sale & Trading?
I will introduce **QTC Institutional Investment Contest**
Get on Bloomberg and build your active portfolio!

Didn't Get Selected for a QTC Team but Still Want to Participate?
Join as a subcommittee & shadow our meetings to develop your skills!

Spotted a Trade Idea Mid-Week?
You will now have the opportunity to pitch it *directly* to senior leadership!
Execute trades *before ideas are priced in!*

Are You an Options/Futures Expert?
Join the NEW Derivatives Team to do your straddle strategies and more!

Worried that your trade idea overlaps with other team's strategy?
NEW cross-team meetings will help you oversee the overall strategy.
I'll implement an organisation-level risk framework and PnL feedback.

**return paid in knowledge*

ENDORSEMENTS

Rodrigo Watanabe, CGCU

AI Engineer, Millennium
SWE, Qnomx

I worked closely with him on a finance project, he delivered sharp insights. I gave a maths talk under his coordination, where he demonstrated genuine commitment and organisational maturity. Throughout every interaction, his communication was reliable and professional.

Isaac Chu

Head of Tech, **Algo Trading Soc**
Analyst Trader, **Dare Trading**

Jason is a more than qualified candidate who has exceptional experience having participated in the Optiver Trading Academy as well as Citadel's Trading Invitational. His amiability and his consistent grit stands out among all.
