

# Manifesto - Kaushal Gogula

Candidate for Postgraduate Taught Academic & Welfare Officer (Business)

## Education Excellence that Empowers

Our learning experience requires more than lectures and deadlines.

I'll strive to:

- Have more transparent and timely feedback loops with the instruction staff.
- Describe: promote balanced systems of assessment across modules.
- Provide "Study Smart" sessions: student-led guidance on exam, coursework, and time management.

You deserve support that empowers progress, not pressure.

## Welfare that Works

- Our learning process must also protect our health. I will focus on:
- More access to counseling and well-being services with reduced waiting.
- Having Mind & Movement sessions which combine physical well-being (gym, walking, treks, runs) with mental support.
- Setting up an environment in which mutual check-ins are the norm.

Because successful students yield a successful society.

## Belonging and Connection

- Our students are from all over the world — let's use that strength. I'll:
- Organize cross-program socials and networking mixers in order to connect MSc, MBA, and all department groups of the Business School.
- Introduce "Career Circles": informal, interest-based discussion circles matching students with graduates.
- We celebrate world festivals and student tales that are part of our identity.

Your wellbeing is my highest priority.

I will convey your concerns with transparency and accountability by providing updates following each significant meeting.

Vote Kaushal for Business Postgraduate Taught Academic & Welfare Officer Empathy. Action. Accountability.
