

Manifesto - Kaushal Gogula

Candidate for Finance Associate

Financial Openness and Student Influence

Every pound in our student budget should count for us. I shall advocate for:

- Better explanations about how the funds are spent and shared.
- A yearly "Finance at a Glance" snapshot: so everybody knows where the money goes.
- A simplified procedure for students to raise queries about anything or propose budget priorities.

Because openness begets trust.

Supporting Societies and Student Initiatives

Student organizations struggle more with finances than with ideas. I'll:

- Streamline funding request and reimbursement processes.
- Offer courses like Finance 101 so committees can manage budgets with confidence.
- Seek to mobilize micro-grants in support of small-scale projects/pilot events that shall animate our community.

Your proposals deserve funding instead of bureaucratic delays.

Collaboration Across Departments

Financial decisions involve everybody: not only the accountants.

I shall advocate for transparent communication among finance representatives, academic officers, and welfare leaders to guarantee that financial policies equally support well-being and inclusion.

Your Money, Your Voice

I'll advocate for you with responsibility, transparency, and action-oriented mentality. We will make the Union's finances simpler and more student-focused, together.

Vote Kaushal for Business Finance Associate Clarity. Fairness. Action.
