

VOTE FOR YOUR ACADEMIC REPRESENTATIVE: LILI GYOPAR

introduction: who I am

Hi everyone!

I'm Lili! You've probably met me or seen me around by now. I take pride in my work and am trying to be an academic weapon (key word *trying*). I'd love to be your academic representative!

Why me?

I know balancing academics with your everyday life is not easy – especially in second year when there seems to be no break!

This is why I find it especially important that the teaching we receive is of the highest quality and we understand as much as we can the first time round. As much as we need to go over topics again after teaching, it would be great if we all came away with at least a basic understanding of what was taught – it makes life a little easier.

I think it's incredibly important that feedback about teaching gets back to faculty. If we can find a middle ground between students and faculty, we can make both our jobs **better** and **more enjoyable**.

Making academics the best we can is a win for everyone: we perform better, stress less and have more time for things that are actually fun!

I vow to represent you to the best of my abilities so your voices can truly be heard.

We're all in the same boat, so let's try to make the journey as enjoyable as possible!

What I will do for you:

I promise that I will do the following to the best of my abilities:

- Actively **listen** to your thoughts, opinions and feedback
- **Advocate** for you to make sure your voices are heard
- **Negotiate** in an effective way to best achieve our collective academic goals
- Provide **regular updates** so you can stay well-informed about current issues and see progress
- **Maintain full transparency** about the work I do
- **Support** you and **work together** closely with the ICSMSU Academics Team

Current ideas:

★'rate the session':

2-3 mini feedback questions after lectures/teaching sessions

★weekly student-led **drop-in revision sessions**

★including **post-lecture Q&As** in Panopto recordings

+ anything you guys want! Send me any ideas you have!

Where you can find me:

Feel free to text me or say hi when you see me on campus :)
