

Botany Coordinator

Nature &

Wildlife

WHAT I MEAN TO BRING ON:

1. **Botanical walks:** scientific recording; joining groups of experts e.g. London Natural History Society & Botanical Society of Britain and Ireland.
2. **Botanical workshops** (Indoors & Outdoors): upgrade ID skills & knowledge of plant science
3. **Volunteering:** Help support & conserve our urban ecosystems.
4. **Botanical activities:** Chat about plants & more.
5. **Compilation** of botanical resources.

PERSONAL NOTES:

This is your **Current Vice-Chair**.

Last year, as your **Gatsby Plant Science Champion** I helped organise 3 botanical walks and when I ran for my current role, I hoped to introduce people to the **multi-dimensional world of plants** that colours the world in so much more than green.

We expanded from a Botanical society to a Nature one, so please give me **a little more responsibility** to coordinate your botanical events for the year!
