

Vote River to represent you!

Bridging our gap between excellence and people

As an Academic Representative, I aim to ensure that everyone experiences another enduring and successful year of studies with minimal effort from both the Students & Civil Engineering Department.

To achieve the above, I'll continue to ask **YOU** for **YOUR OPINIONS** on the course and highlight them to the department. From there, we'll work to mitigate and resolve said issues, relying on our collective experiences, including my own as a student in the course and army instructor.
