

RUHAN

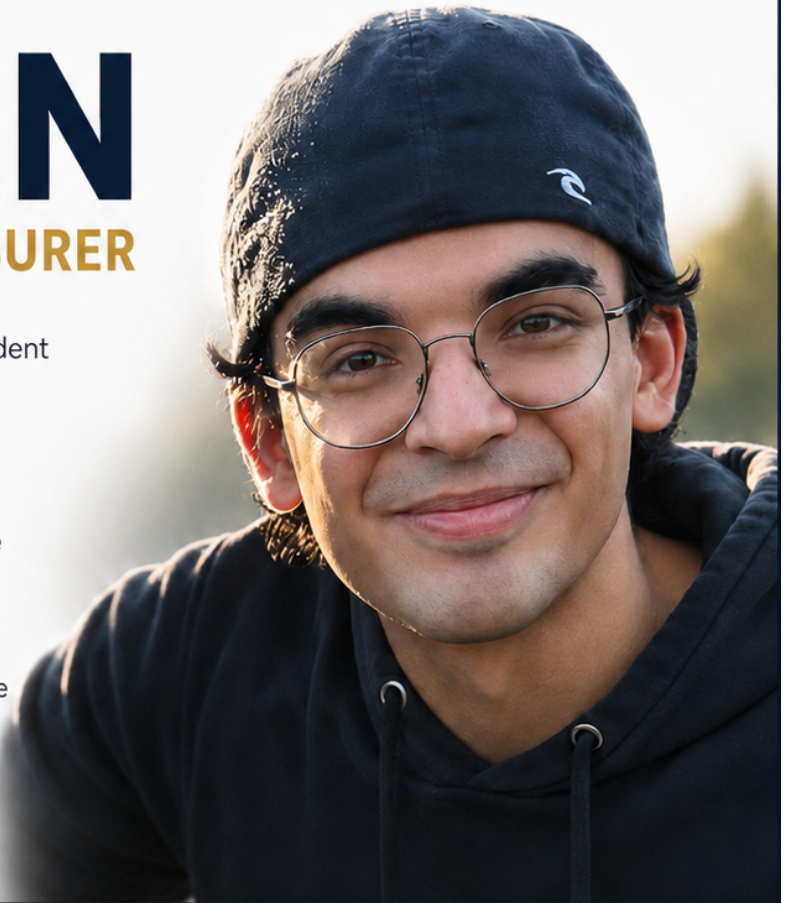

FOR ECONSOC TREASURER

Economics, Finance and Data Science student

WHY I'M RUNNING

Hi, I'm Ruhan, and I'm running to be your next EconSoc Treasurer. I want to play a bigger role in the society and help support the kinds of events students genuinely value. That means careers events, speaker sessions, policy discussions, competitions and socials that make economics feel useful beyond lectures.

As Treasurer, I want EconSoc's funding to be used in a way that clearly improves the member experience.

RELEVANT EXPERIENCE

- Led my school's Digital Society in Year 13 during a school-wide transition
- Worked with a committee and supported 1,000+ students and staff through a new digital transformation system
- Currently helping secure sponsorships for one of the largest inter-university South Asian dance competitions

MY 3 PRIORITIES AS TREASURER

- 1 Make EconSoc more financially ambitious and purposeful with its funding
- 2 Build a stronger sponsorship pipeline by approaching relevant firms earlier across finance, consulting, policy, data and business
- 3 Ensure funding decisions are guided by member value, so money goes towards events people actually benefit from

Stronger sponsorship. Smarter funding.

A reliable financial foundation for EconSoc to do more.
