

VOTE RONAK

Phase 1b Wellbeing Representative

Second-year medicine comes with unique challenges. Let's work together to make sure we get through this **okay**.

As your Phase 1a Wellbeing Representative, I gained experience taking your views to faculty and making sure you were represented. I was also able to form close working relationships with the team at FEO, enabling me to take cohort-wide concerns directly to them. This year, I'd like to continue supporting you through what is likely to be one of the most emotionally years of this course.
