

RISHI VISWANATH

running for

ICU MENTAL HEALTH CAMPAIGNS OFFICER

I want to make Imperial's wellbeing support more visible, personal, and accessible for every student — not just those who already know where to look. Too many great services go underused simply because people don't know they exist.

If elected, I'll launch storytelling-based campaigns that share real student experiences to show what mental health support actually looks like, challenges and all. I'll also work with departmental Wellbeing Officers to better promote workshops and boost support during the winter months when students need it most.
