

Vote Tansy for phase 1b academic rep!!

✿ some things I want to do: ✿

1. Make feeding back easier (even tho we love SSLGs)

2. Improve comms around SSLGs and faculty decisions

@tansy4academic.rep

3. Spotlight clinical skills

Most of all, I want to be someone you **feel comfortable approaching with anything about our course and learning** :)

I can't take the difficulty away from medicine, but I will happily **amplify your voice for what you want to change**, in class and out of class <3
